

ABOUT US

Utah Boys State is a transformative civic experience that invites young men to discover the power of democracy by living it. Over the course of a dynamic week, participants do more than learn about government, they step into the responsibilities of citizenship, build confidence as leaders, and begin to see how their voices and actions can strengthen their communities.

The program brings civics to life through leadership development.

Boys State is a once in a lifetime opportunity

Mission

Provide annually a paticipatory, educational workshop of civics and government instruction for U.S. high school students, where students become part of the leadership and operation of city, county, and state government, and learn the functional aspects and responsibilities of citizenship.
